

FragranceFogger

Bird Repellent Delivery System

Natural Forces, LLC. makes bird control easy, safe and effective.

Repels birds both indoors and out!

- Shopping malls, stadiums, restaurants, cafes, atriums, patios, pools, garages, marinas, packing houses, warehouses, barns, stables, landfills, transfer stations and more.

The **Fragrance Fogger** delivery system eliminates birds from many settings. It uses a dry-air technology that spreads a time-released, bird-repelling fragrance without the use of sprays, aerosols or heated oils.

The Fragrance Fogger uses Fog Force® bird repellent which is impregnated into replaceable cartridges. A built-in fan pushes air through the cartridge membranes releasing the repellent quietly and discreetly. These cartridges can be easily replaced monthly to meet your needs.

The Fragrance Fogger can be positioned and aimed for directional use while easy-to-adjust duration and intensity settings allow customized scent output to suit any environment. A motion sensor option helps in areas of frequent or occasional bird activity. The Fragrance Fogger offers multiple installation options and is easy to maintain.

- **Area Covered:** Up to 4,000 sq. ft. (372 sq. M) depending upon air flow.
- **Use Rate:** 1 insert per 30 days depending on setting.
- **Package Size:** Each insert holds 7 fl. oz. of Fog Force® bird repellent.

Technical Specifications

Dimensions	8.5" L x 6.3" W x 7.25" H (21.6 cm x 16 cm x 18.5 cm)
Weight	2.0 lbs. (0.9 kg); 3.75 lbs. (1.7 kg) with 1040 cartridge
Coverage	Up to 4,000 sq. ft. (372 sq. m) based on airflow/placement
Scent Cartridge Life	Approx. 300 hours
Variable Airflow Control	10 to 40 cubic feet per minute (0.3 m to 1.13 cu. m/minute)
Variable Manual Cycle Time	10 second minimum, 60 second maximum
Variable Motion Cycle Time	15 second minimum, 180 second maximum
Motion Sensor	Up to 25 feet with 30 degree radius (8 m)
Power Consumption	7 watts
Power Requirements	12V DC, supplied with appropriate UL or CE listed power adapter with 12 ft. (3.7 m) cable
Auxiliary Power	12V DC

Various AC plug configurations are available. Solar power and battery power available!

FragranceFogger Bird Repellent Delivery System

The Three Keys To Success

Location

- Choose the right location to place your Fragrance Fogger.
- Mount in areas where birds congregate or roost.
- Point in direction of and height of problems areas.
- May be installed indoors or covered outdoor areas.

Air Flow

- Identify the direction of dominant air flow.
- Place the Fragrance Fogger "upwind" from birds.
- Install in areas of limited or stagnant air flow for maximum effect.
- Do not place in large open areas or areas with heavy air flow. Doing so dilutes the Fog Force®.

Power Source

- Can be powered by alternate power sources depending on application. i.e. AC, DC, solar.
- Low wattage power requirements allow for solar or battery power.
- Various AC plug configurations available for international use.

Easy To Install, Easier To Maintain

1. Select proper placement of Fragrance Fogger to ensure that the directional fan delivers the fragrance to the birds.
2. Mount the system using provided mounting brackets and hardware, or place on firm and secure horizontal platform.
3. Attach power source as required per application.
4. Set the system to pre-set run time, continuous running or motion activation.
5. Simply replace the cartridge monthly or as often as needed. Each cartridge comes with a built-in fan for easy maintenance and reliability.
